

REMODEL PRE-DESIGN QUESTIONNAIRE

We have put together a list of questions to help you articulate your vision for your remodeling project. Your answers to this questionnaire will help clarify your needs and goals during our Budget Meeting. Please return 1 week prior to this meeting.

As you go through the questions, keep a few things in mind:

- ◇ **Dream big, then scale back.** Don't be afraid to think about and describe what your "perfect world" would be like. As things move forward you can adjust these ideas to the budget, zoning, timeframe, land, and other realities.
- ◇ **Separate the "needs", "wants", "dreams", and "don't wants".** The needs in your home you cannot live without. The wants in your home are realistic and easily obtainable. The dreams for your home are more difficult to achieve and require immense resources. The things you don't want in your home are equally important to imagining your home's image.
- ◇ **Don't try to solve the problem, just express your desires.** Even if your problems and desires seem at odds with each other or impossible to obtain, keep moving with your design and focus on what you want.
- ◇ **Include all of the opinions.** If there are differing opinions between you and your household members, include all ideas. It's important to address everyone's concerns in order to create something that works for everyone.
- ◇ **Describe what and why you like or don't like.** Think about things you're opinionated on in your own home or other homes. Give examples and use as many descriptive words as you can. Again, what you don't like is equally important when designing your home.
- ◇ **Collect some images of features or things that you're drawn to.** Houzz and Pinterest are great places to find inspiration. Magazine clippings work great too. Consider floor plans, architectural features, and building materials that you like, or ones that create a certain mood or feeling. (Feel free to share your Pinterest pins with us @ lakefrontbd!)

If a question is not relevant to your situation or you are unsure, just skip it.

We know this packet may seem daunting. This does not need to be completed in its entirety, but the more information you provide, the more we are able to share the same vision for your home.
